Anas Ouassou
IT engineering student

As a second-year student at an engineering school with a specialization in scientific computer modeling, I am actively searching for a two to three-month internship, particularly in the areas of cloud computing or data science. My goal is to augment my academic understanding and acquire hands-on experience in a professional setting. With a fervor for information and communication technologies, I am eager to collaborate with a dynamic and forward-thinking company during my internship. My aim is to apply my theoretical knowledge, acquire new skills, and contribute to the realization of tangible projects.

Education

2020-2022
CPGE MPSI/MP

2022-Present
Engineering degree in Modeling and Scientific Computing
Mohammadia School of Engineering

Soft Skills

- Dynamism
- Teamwork
- Adaptation
- Leadership
- Curiosity
- Problem Solving

Language

- **English**
- **French**
- **Arabic**

Interests

- **Gaming**
- **Trading**
- **Editing**
- **Football**

Experience

○ **Internship at Wemanity Maroc**
Developing an AI-driven platform aimed at facilitating the identification of optimal candidate profiles for the organization.
July, Casablanca Metropolitan Area

Projects

○ **Stock Prediction (Machine Learning)**
Python I Pandas
yFinance I RandomForestClassifier

○ **Guess the Weather (Machine Learning)**
Python I Numpy I Pandas
Sklearn | Ridge

○ **PFA : Pricing of European Options using the Binomial Model**
Binomial Model I Black and Scholes Model
Python I Latex

Technical Skills

○ **C, C++, Java**
○ **Python, R**
○ **SQL, MySQL**

○ **HTML 5, CSS, JS**
○ **Git, Github**

Certificats

○ Coursera Certificat : Neural Networks and Deep Learning
○ AWS Cloud Quest : Cloud Practitioaner
○ Kubernetes Operators Advanced, IBM
○ GitLab CI : Pipelines, CI/CD and DevOps, UDEMY

Extracurricular activities.

○ ITACADEMI : Member (2022-Present)

○ MCPC 2020 : rank of 29

○ Participation in the 3rd edition of the Hackathon organized by Fintech ENSIAS (2023).
